## About Me

I'm a Web Developer with expertise in React Front-End, I like to code things from scratch, and enjoy bringing ideas to life, I focus on responsive aplications built for an optimal user experience.

## Technologies:

- Javascript / CSS / HTML
- React Front-End
- SCSS / Material UI
- Node JS / Express JS
- MySQL / MongoDB / Firebase
- Apps Script (Google environment)

## Work Experience

**16/10/2021  -**  Accenture - DevOps Agent

As an agent of the Developer Operations Tea, I'm responsible for checking the compliance of apps with our Client platform and developer policies. Review apps and process requests for different workflows and products.

**12/10/2020 - 16/10/2021 -** Accenture- Content Reviewer

As a Content Reviewer,  I'm responsible for analyzing and reviewing the content escalating and/or resolving issues that are reported by users or flagged by the system;

Achievements: In my time at the project in Youtube Trust and Safety, I've developed web apps that improve the performance of agents, and also allowed better analysis and storage of the data gathered;

**05/08/2014 - 07/04/2017** - Faurgs - Brazil
Assistant Administrative

Responsible for the management of scientific research projects from the federal university and other government institutions.
I was hired as an intern and promoted to a full-time employee within the first month, due to the

professionalism I showed as well as the innovative changes to the current process. After that I had rapid growth within the organisation, being promoted many times.

In charge of the acquisitions with high value, writing down the tender notice, analysing offers and ensuring that they matched the specifications for the contract agreement. Working accordingly to compliance ensures extra attention to detail and a lot of research due to various subjects.
